

## APPENDIX

### Memorial Permit

Please note all memorials are to be erected in accordance with the NAMM Code of Practice, which is available on their web site.

All work must include use of stainless steel dowels and approved ground anchor supports where necessary.

An undertaking to be given that all work meets with this Code of Practice.

### Requirements for the Numbering of Memorial Stones (Lewes and Seaford Cemeteries)

It is a requirement that all memorial stones installed at the above cemeteries have a number engraved onto the rear (in the case of upright memorials) or underside (in the case of tablets) of the memorial, to aid plot identification.

As well as the plot number, it is necessary, in some areas, to include the block or area, which may be in an abbreviated form.

The tables below show what is required for each cemetery.
